

INTERNATIONAL Student Exchange

We are ISE exchange students who just completed a fantastic year in the United States. Thanks to our volunteer hosts, we were able to experience things such as homecoming, Halloween, football games, Thanksgiving, and daily life in an American family! We also were able to give back to our host communities through service projects.

There are many students like us waiting to experience American culture for the upcoming school year. Consider opening your heart and home to one of these students. You'll begin the program as strangers, you'll end it as family!
